—The Milwaukee & St. Paul railway company recently began the collection of brief but comprehensive sketches of the men in its employ, more particularly with respect to their railroad experience. It is a fact that it requires of applicants for employment a life statement of their experience in operating a railway. It is said that no distinction is made, and that the official who has demonstrated his worth by long years of satisfactory service is required to furnish his sketch along with that of the humblest subordinate. These reports are preserved in the general manager's office, so that in a short time the company will have the railroad history of every man in its employ. The idea is one which has been adopted on all the leading roads in the country. All the men engaged in the service must furnish their railroad experience as fully as possible. It must include all the accidents or wrecks with which he has been connected, give the date of his various promotions, whether he was ever "laid off," and for what cause, etc.

THE CROSSING IS MADE.

Orders from Headquarters Direct to the M. & St. Paul Station to be withdrawn.

The negotiations that have been going on in regard to the River street crossing came to an end to-day. About nine o'clock Agent Croft, of the Chicago, Milwaukee & St. Paul road, received orders from headquarters to withdraw his freight engine and allow the frogs to be put in place. At the same time orders came to the Northwestern roadmaster to get his men ready so that he could lay the crossing between 1:15 and 4 o'clock this afternoon.

When the time came everything was in shape to begin and the work progressed rapidly.

What the arrangement between the two roads is, the local agents are unable to tell.

Any price to make a sale will be the rule on millinery goods after December 1st.

CITY GOVERNMENT.

Regular Meeting of the Common Council last Evening.

The Aldermen Vote Unanimously to Invest in No More Electric Lights this Term.

Directors of Business Concerns.

The common council assembled in regular session last evening. His Honor, Mayor Winans, in the chair, and all the aldermen present except Ald. Carpenter, Croft, Judd and Rooney.

The journal of the last meeting was read and approved.

The clerk read a petition from F. M. Hubbard, asking the council to permit his fence and building to remain on Dodge street until the opening of the building season next spring, at which time he would remove the same and build a substantial two-story block. The petition was also signed by several resident property owners approving the request. The document was referred to the judiciary committee.

The resignation of A. Lender as a member of Engine Co. No. 2, and the election of Geo. Ruse as a member of the same company was referred to committee on fire department, and upon a favorable report from that committee was approved.

The clerk read a number of bills against the various funds. Referred to the finance committee.

Ald. C. C. McLean, of the finance committee, reported in favor of allowing a miscellaneous batch of bills against the various funds, amounting as follows:

General fund, \$1,000.00; First ward fund, \$1,000.00; Second ward fund, \$1,000.00; Third ward fund, \$1,000.00; Fourth ward fund, \$1,000.00; Fifth ward fund, \$1,000.00; Total, \$5,000.00.

The report was concurred in.

Ald. J. B. McLean, of the fire department committee, reported that the committee had sold the east side horse carriage house, obtaining \$350, and that the committee was now looking for a suitable horse to take its place.

Ald. J. B. McLean, of the special committee, to whom was referred the complaint and claim of Geo. Craven, growing out of the extension of High street, in the fourth ward, made a statement, and called upon the city attorney to explain the legal point. The attorney after stating the facts gave it as his opinion that all the forces of law had been complied with, and that the assessment against the property of Mr. Craven was valid.

Ald. C. C. McLean, of the judiciary committee, reported back the Hubbard petition, recommending that nothing further be done in the matter of the removal of the obstructions complained of until after the first of June next, report adopted.

Ald. C. C. McLean—that no more electric lights be contracted for during the term of this council. Adopted by an unanimous vote.

On motion of Ald. J. B. McLean, the Council adjourned.

Those who believe that nature will work off a cough or cold should understand that this is done at the expense of the constitution. Each time this weakens the system, and we all know that the termination of this dangerous practice is a consumptive's grave. Don't take the chances, when a fifty cent bottle of Dr. Brown's Cough Cure will safely and promptly cure any recent cough, cold or throat or lung trouble. Buy the dollar bottle for chronic cases or family use. A. Evanson, opposite postoffice.

At seven o'clock this morning the thermometer indicated 12 degrees above zero. Cloudy with north wind. At one o'clock p. m. the register was 36 degrees above zero. Cloudy with northeast wind. For the corresponding hours one year ago the register was 37 and 41 degrees above zero.

"Never was heard such a terrible curse" as the man got off about his stubborn cold. Could it be possible that he had been in civilization and had not heard of Dr. Brown's Cough Cure. Let him take the reliable, and stop sneezing. Price 25 cents.

—Mr. and Mrs. Harry Ab, of St. Paul, are in the city, visiting Mrs. Ab's parents, Mr. and Mrs. S. Foldrege, South Main street.

PHILADELPHIA, Nov. 20.—Judge Butler, in the United States circuit court Monday, granted application by Col. R. G. Ingersoll, counsel for the United States, through the company, for leave to bring suit through the recovery of the Bankers' and Merchants' Telegraph company against the Western Union Telegraph company for damages incurred by the cutting of the Bankers' and Merchants' telegraph lines.

A Connecticut Editor Cried.

BRIDGEPORT, Conn., Nov. 20.—James B. Balling, a reporter of the Bridgeport Morning News, was arrested at front of his office at 10 o'clock Monday morning by Charles Foster, who approached him from behind, and struck him several heavy blows about the head with a loaded cane. Neither spoke a word. It is supposed that Foster made an attack on Balling on account of an article published Saturday morning concerning Foster and a well known woman in town. A warrant has been issued for Foster's arrest.

THE WOMAN'S SUFFRAGE CONVENTION.

Evansville, Nov. 28, 86. (Special to the Gazette.)

The ladies of the Evansville Equal Suffrage Association have just concluded a very interesting convention in this place. Miss Susan B. Anthony, of Rochester, N. Y., Mrs. Colby, editor of the "Woman's Tribune", of Beatrice, Nebraska, and Rev. Olympia Brown, of Racine, were the principal speakers.

The evening session addressed by Mrs. Colby and Miss Anthony were made up by our most intelligent and worthy citizens, and every one must accord to the speakers a breadth of thought and eloquence in dicta rarely equaled by any speaker on the public platform.

Miss Anthony thought over sixty years of age is full of life and vigor and to all appearances is able to do many years of active work yet. Mrs. Colby is of pleasing address and a very forcible speaker, and by her earnestness and eloquence without irony carries a weight to her arguments very rarely possessed by radical speakers. Mrs. Brown is better known as a long resident of Racine and minister to the Universalist church of that place. Whether all can agree to the proposition of equal suffrage or not the lectures abounded in solid fact and points hard to gaudy "this is the question which was put."

Philadelphian, returned home only a few days ago after several days spent in looking over the '88 list.

From every quarter comes the word that farmers should tie their last up in small, even bundles but not necessarily to spend much money in assorting it unless it is of very fine quality.

Wisconsin '88 is quoted in the New York market at from five and a half to seven and a half cents for very white and heavy leaf; from eight to ten cents for wrapper leaf with traces of white, and from twelve to fifteen cents for clean and wrapper roots.

It is stated by Bradstreet that the seed-tail yield will be less this year than last, due principally to decreased acreage and very bad growing weather in this year. In New England the acreage and yield will show a decrease, more particularly in Connecticut. In the seed leaf districts outside of Wisconsin the plant conditions were fairly good and the quality is good, especially in Pennsylvania, where reports indicate a crop as good as ever grown in that state. The New England crop is also superior to most recent crops. An increase over last year is shown in Pennsylvania only. In New York the crop has fallen off both in acreage and yield. The total crop of the seed and leaf states this year will probably aggregate a total of \$1,845,000 pounds on an acreage of 60,995 acres.

NEW YORK CITY.

The weeks transactions amounted to about 1800 cases. Most of the goods sold were of '88 seed leaf and seed crop, the balance consisted of '86 Wisconsin and old
